

**Oncosurgery:**

Velocity Hospital provides integrated cancer care through its "Multi Super Specialty Organ-Specific Cancer Care" approach, involving collaboration among specialists. The Oncosurgery department offers advanced treatments for various cancers, including anal, breast, liver, gastric, colon, rectal, and pancreatic cancers. Patients have access to state-of-the-art diagnostic modalities and advanced surgical techniques. Dr. Rahul Shah leads the Oncosurgery department. The hospital also offers various other medical specialties and departments.
