

Orthopedic and joint replacement services:

Velocity Hospital provides comprehensive orthopedic care, including treatment for knee, hip, and joint issues. Specialties include sports medicine, pediatric orthopedics, arthritis diagnosis, and pain management. Advanced treatments such as total knee and hip replacement, arthroscopic surgery, and spine surgery are offered. The hospital's digital orthopedic operating suite ensures precise implant sizing and positioning. Led by experts like Dr. Mitesh Patel and Dr. Hardik G. Sheth, the department offers treatments for various orthopedic conditions, ensuring early mobilization and optimal outcomes for patients.
