Neurosurgery . Neurosurgery . At the department of Neurosurgery at Velocity Hospital, neurosurgeons are trained in  
brain and nervous system surgery in order to treat people with brain and nervous system (neurologic) conditions.  
Neurological surgery is a special medical branch that is solely concerned with the prevention, diagnosis, treatment, and  
recuperation of conditions that affect any portion of the nervous system such as the brain, spinal cord, peripheral  
nerves, and extra-cranial cerebrovascular system.The team of surgeons includes internationally reputed experts, who  
are deft at providing innovative and the most modern surgical treatment and management services for all sorts of  
disorders of the nervous system. Our team of surgeons and neurological specialists are trained from top universities  
and they aim to provide advanced clinical care focusing on using minimally invasive techniques to treat the patients.  
The hospital is committed to improve and research the latest therapies used to treat neuron disorders in patients  
suffering from this disease.The department performs over 1000 procedures each year. We have a dedicated team of  
surgeons who have undergone training from the top-class faculty of reputed institutions. With an established and well-  
equipped lab, with the latest technological equipment for the diagnosis and treatment of patients we aim to provide the  
best care in India.The neurosurgery division is equipped with dedicated state-of-art operating rooms with good  
infrastructure, exclusive intensive surgical wards and has established a rehabilitation center for post-operative patient  
care. Every test and procedure performed is well organized and the results are accurate; it is the togetherness of the  
team that brings out great results. . Treatments . Brain tumour. . Cerebral Aneurysm. . Movement disorders. .
