Home - Physiotherapy . Physiotherapy . Well planned and properly executed physical rehabilitation programme is one of the most important components of the overall treatment system adopted by us for the patients. The programmes are designed to suit different requirements of patients to attain maximum functional restoration and return them to a healthy active life-style. A variety of physiotherapy techniques are customized to suit different requirements after assessing the various needs of each patient. We are committed to provide comprehensive and personalized training programmes for each patient. This includes physiotherapy and occupational therapy. The department of Physiotherapy and Rehabilitation is well equipped with the latest equipment working on various sub-specialties of physiotherapy. We have a qualified, experienced and well-trained team of physio and occupational therapist to providing OPD Services and IPD Services (inwards and intensive care units) with treatment procedures of international standards to offer a multifaceted approach to the patient’s rehabilitation. . .
